### Answers:

- A1. Genuine Smoky Quartz is radiated by frequencies sent directly from the Godhead.
- A2. The qualities missing are divine vibration, love, and the presence and blessing of the Godhead.
- A3. Besides not having any love or divine vibration, fake Smoky Quartz opens the Base Chakra long before the person using it is ready. The person's low and dense physical and subtle bodies are not prepared to deal with extremely high vibrations of the soul's seed-light as it begins to empower the bodies.
- A4. Multiple lifetimes.
- A5. Artificially radiated Smoky Quartz may appear:
  - a) To be extremely dark,

- b) Have dark bands or veins running through its mass,
- c) It may be crisply black.

A6. No. Commercial business interests have gotten much more sophisticated in disguising the products of artificial radiation compared to a few years ago.

A7. First, make certain that your source for crystals is trustworthy. Second, check-in with your spirit guides.

A8. Place it in the trash.
